SUMMARY

Experienced Fullstack Developer and ETL Specialist with over 2 years of expertise in crafting high-impact web applications and robust data processing solutions. I bring a comprehensive skill set in full-stack development and ETL processes, employing the latest technologies to build secure, scalable, and efficient applications. My track record includes managing and optimizing large-scale internal systems, creating sophisticated reporting and analytics tools, and delivering data-driven insights. I am highly driven, with a strategic approach to problem-solving and a commitment to achieving professional-grade results that exceed expectations.

EXPERIENCE

Fullstack Developer
PT Maha Sentral Sejati ↗
01/2024 - Present

- Developed and Deployed Internal Application: Built and deployed an internal application from scratch, used by over 1500 users, including internal office teams and field sales teams, for managing market and merchant data on both mobile and web platforms.
- Created Reporting and Analytics Tool: Developed an application for employee productivity reporting and market analysis to support strategic decisions, including ETL data synchronization from sales applications to reporting systems.
- Full-Stack Development and Server Deployment: Managed all aspects of development, from frontend to backend, and deployed to the server, handling everything from initial setup to full-scale development.
- Optimized and Debugged Applications: Identified and fixed bugs while optimizing performance to ensure reliability.

ETL Developer | Backend Developer
PT Madani Intelsysdata - Jakarta, Indonesia ↗
07/2022 - 01/2024

- Build web-based and mobile-based applications Digital Lending for banking application
- Resolved customer queries and problems using effective communication and providing step-by-step solutions.
- Developing Bank reporting applications such as ANTASENA, SLIK, LPS and APOLO
- Assist Banks reporting to BI or OJK

- Achieved service time and quality targets.

Intern Fullstack Developer
PT Madani Intelsysdata - Jakarta, Indonesia ↗
08/2021 - 01/2022

- Developed a web-based core banking prototype utilizing the Spring Boot framework, complemented by a mobile-based application built with the Flutter framework.
- Implemented backend services using Spring Boot for seamless functionality.
- Facilitated clear communication of technical and design specifications to ensure optimal performance, reliability, and accessibility.

EDUCATION

Informatics Engineering   09/2024 - Present
Universitas Al Azhar Indonesia - Bachelor of Informatics Engineering

Software Engineer   07/2019 - 06/2022
Wikrama 1 Garut - Vocational High School
Best graduate in software engineering major

SKILLS

C#	Flutter
.NET Core	JavaScript
AJAX	NodeJS
Bootstrap	ReactJS
Tailwindcss	Microsoft SQL Server
Java	MariaDB
Spring Boot	MySQL
Vue	PostgreSQL
ETL Development	Database Optimization
PHP	SSIS
Laravel	SSRS
Android Development	Problem Solving
Dart	Collaboration

LANGUAGES

English	Indonesian
